This policy manual may be amended by a majority vote of the Executive Committee.

The chapter and department of the member concerned shall be notified of such actions.
- ◇ Section 2: Honorary Life Memberships – The Executive Committee may award not more than five persons each year as honorary life members, with not more than two of those awarded being members of the uniformed services. Selection of honorary life members shall be based upon outstanding service rendered to the cause of national security. Persons eligible for active membership in the Association shall not be eligible to become honorary life members.

- **POLICY C-12: INTEGRATION OF COMPATIBLE ASSOCIATIONS**

The Executive Committee may provide for the integration into ROA of any association whose members are eligible to membership in ROA; accept their assets, including trust funds, and assume the liabilities and obligations of such organization. Term members of that organization may become term members of ROA for existing unexpired terms of membership in that organization without further payment of dues. The Life Trust funds may be consolidated upon an actuarial study of the compatibility and upon consolidation of the two Life Trust funds. At that time a determination will be made as to the Life Membership status that will be conferred on the merger members.

- **POLICY C-13: BUDGET AND FINANCE**

- ◇ Section 1: Banking Resolution – The standard banking resolution with financial institutions with which ROA has accounts is: “The authorized signature is the National Executive Director and a minimum of two other paid staff members as designated by the Executive Director.”
- ◇ Section 2: Budget Transfers – Beginning with the Fiscal Year 2011 Budget, withdrawals of principal from ROA’s non-restricted insurance funds (commonly known as “transfers”) will not exceed 10% of the total budget. In each succeeding fiscal year, the amount of such withdrawals of principal will be reduced, and such “transfers” will not be made in the FY-2015 budget or thereafter.
- ◇ Section 3: Cash Disbursement – The Treasurer shall be notified of any cash disbursement which equals or exceeds \$50,000.
- ◇ Section 4: Committee Funding – Only when specifically authorized in writing by the president or the executive director, shall expenditures be authorized for: any committee not specifically funded in the budget process for the fiscal year concerned; any committee meeting during any national meeting; Executive Committee liaison members to attend committee meetings; or committee attendees who are not official members of funded committees as ratified by the Executive Committee. National Council and Executive Committee members are authorized to attend meetings of select funded national committees to which they are liaison officers.
- ◇ Section 5: Department Convention Funding – ROA pays for transportation for a national representative; the department is asked to pay for registration, food and lodging while the representative is attending the convention.
- ◇ Section 6: Fiscal Year – The fiscal year for all ROA subordinates, including departments and chapters, shall be in alignment with National.
- ◇ Section 7: Insurance Premium Distribution
  - (a) 5% of premiums to Reserve Contingency Fund paid quarterly by administrators from AD&D, Excess Major Medical, Cancer, Youth Life, Long Term Disability, Long Term Care and Dental.
  - (b) 5% of Paid Life premiums to General Fund for insurance administration, paid annually each summer, by Executive Committee action, from any Term Life Insurance underwriting balance.
  - (c) 4.8% of Paid Life premiums to General Fund for membership development and maintenance, paid monthly by administrator.
  - (d) 1% of Paid Life premiums to General Fund for member services, from both Life and ReserveCare.
  - (e) 4% of ReserveCare TRICARE/HIP/STR premiums and 2.1% of Medicare Supplement premiums to General Fund for membership development and maintenance, paid monthly by administrator.
  - (f) Any positive underwriting balance must be distributed as determined by the Executive Committee with due consideration of recommendations by the Insurance and Financial Services Committee and requirements by the underwriters.

◇ Section 8: International Funds

- (a) Line items within the budget should be established to track international funds.
- (b) All CIOR/CIOMR/UPORFA registration fees used, with the exception of member's credit card fees, should be deposited directly into discretionary fund sub-accounts and should be specific as to CIOR, CIOMR, and UPORFA respectively. These should be easily identified, and should be used for no other purpose.
- (c) All disbursements for registration fees should be deducted from each respective discretionary funds sub-account.
- (d) All CIOR, CIOMR, and UPORFA dues should be paid from ROA general funds.
- (e) If the respective discretionary funds are insufficient to cover approved CIOR, CIOMR, and UPORFA approved budgeted expenses at the end of the fiscal year then the remaining requirements will be funded by the ROA General Fund.

◇ Section 9: Major Decision Items and Financial Commitments

- (a) The Executive Committee shall approve an annual operating budget for the fiscal year that will project income and expenses and will provide for programs and support services as outlined in the work plan for the year. The Executive Committee will approve the annual budget prior to the start of the fiscal year.
- (b) The Executive Committee authorizes the Executive Director to manage the association in accordance with the approved annual operating budget. Major decision items and financial commitments greater than \$50,000 that were not approved for in the budget, must be proposed fully in writing to the Executive Committee members prior to discussion and decisions.
- (c) Once the budget has been approved for the fiscal year, the budget shall be included in the accounting system of the association. As monthly financial statements are prepared, a comparison of actual monthly results of operations to budget figures shall also be prepared. The financial statements and budget variances shall be reviewed quarterly by the Budget and Finance Committee.
- (d) When deemed necessary, the Executive Committee shall revise the budget to fund additional services or make allowances for other unbudgeted revenues or expenses.

◇ Section 10: National Officer Expenditures – Outgoing national officers with budgeted funds shall not spend more than 90% of their new budget from 1 April to 1 February.

◇ Section 11: Purchase Authority – The executive director has purchase authority of up to \$25,000 without prior Executive Committee approval for contracts, building renovations and repairs, and capital expenditures. Any expenditure must be within the approved operating budget unless of an emergency nature that requires immediate action. Capital expenditures must be within the approved capital expenditure budget. The executive director shall, as soon as practicable, notify the president and the Executive Committee of any emergency expenditure which causes or may cause a possible over-run of the approved total operating budget.

◇ Section 12: Reimbursement of Members' Expenses from National Funds

- (a) Scope – These guidelines apply to all expenses which any ROA member seeks to have reimbursed from national funds. This includes expenses of national officers, committee members, consultants, and other members performing official duties at the national level. The guidelines also apply to reimbursement of expenses for non-

ROA members when performing activities in support of the president, vice presidents, or junior vice presidents when approved by the president or executive director. Reimbursement of expenses for employees of national headquarters is covered by a separate policy promulgated by the executive director.

(b) Purpose – These expense guidelines serve to:

1. Help ROA members decide what expenses to claim.
2. Assist the national staff in processing member claims.
3. Provide uniform standards for reimbursement of expenses.
4. Insure that national funds are used prudently.
5. Reduce disagreements concerning which expenses may properly be claimed.

(c) General Guidelines

1. When Expenses are Reimbursable

A. There are four principal budget categories used for reimbursement of members' expenses.

(1) The president's budget encompasses the president's own expenses in the discharge of his duties, as well as attending meetings of national committees.

(a) The Executive Committee will meet as necessary at the call of the national president.

(b) Other national committees may hold paid meetings with the prior approval of the president. Many committee meetings, including those held in conjunction with national meetings, are normally not subject to reimbursement. If in doubt, a member should check with the president in advance.

(c) The president may further commission individuals to perform duties to support him, and reimburse those persons from his budget.

(2) Each vice president's budget encompasses that vice president's own expenses in the discharge of his duties, as well as attending meetings of national committees for the particular service section.

(a) National service section committees may hold paid meetings with the prior approval of the vice president for the particular service section.

(b) A vice president may further commission individuals to perform duties to support him, and reimburse those persons from his budget.

(3) Each junior vice president's budget encompasses that junior vice president's own travel expenses in the discharge of his duties. A junior vice president may commission individuals to travel to support him, and reimburse those persons from his budget.

B. Duties in Support of ROA – Activities for which expenses may be reimbursed include those that manage the assets and resources of the Association, improve membership acquisition and retention, enhance service section activities and esprit de corps, or directly or indirectly advance the purpose of the Association to insure an adequate national security.

2. Actual Expenses — Only actual out-of-pocket expenses are subject to reimbursement. The payment of fees or honoraria to individuals out of a national officer's budget shall be subject to the prior approval of the Executive Committee.

3. Reasonable and Prudent Expenses — Bearing in mind that all monies budgeted for national officers are allocated from member dues or contributions, individuals

should limit expenses to those that are reasonable and prudent in light of the specific task to be accomplished on behalf of the Association. If an individual's expenses, in whole or in part, exceed those which are reasonable and prudent, the individual should reduce his expense claim to a level which he feels is reasonable and prudent for each item claimed.

4. Double Reimbursement — An individual may be able to perform duties for which he is entitled to reimbursement of expenses from ROA as well as another organization. This practice is encouraged, as it serves to reduce claims for both organizations. However, in no case may an individual be reimbursed by ROA for expenses that are or will be reimbursed by any other organization.
5. Processing Expense Claims
  - A. The ROA expense claim form includes a statement that the claimant certifies that the claim complies with these guidelines.
  - B. No policy can anticipate every legitimate expense; moreover, the determination of whether or not an expense is justified must be made by the executive director, or his designated subordinate, upon consideration of all the facts in a particular case.
  - C. To be eligible for payment, expense claims are expected to be submitted within 60 30 days of the activity concerned, but no more than 10 days after the month's end (e.g. April expenses by May 10th).
  - D. A receipt must be attached to the reimbursement form for any expense more than \$50. If a receipt is lost, a note must be attached to the reimbursement form indicating the expense and its purpose.
  - E. If an expense is entertainment or meal related, the business purpose and attendees must be documented on the reimbursement form or as an attachment to the form.

(d) Guidelines for Specific Expense Categories

1. Travel Expenses
  - A. ROA will reimburse travel expenses for an individual performing duties on behalf of the Association. Travel expenses of other persons travelling with that individual are not reimbursed.
  - B. For long distances, air coach travel is recommended, and discount fares are preferred. An individual may elect to travel by other means, but travel reimbursement, including meals en route, is limited to economy air fare. Baggage fees are reimbursable, but are limited to one bag per person.
  - C. For local travel, including transportation to and from the airport, airport limousines or buses may be used. Taxi expenses may be appropriate when several persons share the taxi, or in the absence of convenient limousine or bus service. Personal automobile expenses are reimbursed at a standard mileage rate, which is set by the national headquarters. Parking of personal cars at airports is also reimbursed. Valet parking is not reimbursable. Rental cars may also be justified if several persons will ride together.
2. Hotel Accommodations
  - A. ROA will reimburse lodging expenses for an individual performing duties on behalf of the Association.
  - B. Additional lodging expenses incurred when an individual extends an official trip for purposes other than ROA business are not reimbursed.
  - C. Additional lodging expenses for other persons sharing accommodations with that individual are not reimbursed.

- D. In Washington, DC, where most paid ROA meetings are held, ROA frequently contracts with hotels in order to obtain the most economical lodging available. To enter into this contract, the Association guarantees a minimum number of nights of lodging per year. Consequently, individuals working for ROA are strongly encouraged to use only the prearranged hotel. Reimbursement for lodging will be limited to those staying in the contracted hotel at the negotiated rate.
- 3. Meals — ROA will reimburse meal expenses for an individual performing duties on behalf of the Association. Meal expenses for other persons sharing accommodations or travelling with that individual are normally not reimbursed. However, in those rare circumstances, reimbursement requests must include the individual(s) name(s) and purpose of the meal. In certain situations, a flat per diem rate may be used. When those situations arise, members will be advised of the per diem rate to use.
- 4. Special Occasions, Gifts and Entertainment
  - A. On certain special occasions, a national officer responsible for a budget account may schedule a social activity, such as a dinner or excursion, in order to build enthusiasm and morale. The national officer may invite guests to that activity, or invite members to bring their own guests. It is the responsibility of the national officer to set any restrictions on the number of guests a member may invite to such a social activity. The national officer will ensure that invitations are communicated well in advance of the event, to allow travel plans to be made accordingly.
  - B. A national officer responsible for a budget account may elect to present tokens of appreciation to members or other individuals for service to the Association.

  - D. Such expenses will be reimbursed by the Association.
- 5. Other Expenses — It is the custom in ROA that members normally are not reimbursed for expenses for attending national meetings or national conventions. However, a national officer responsible for a budget account may elect to defray all or part of the expenses of a member performing significant services on behalf of the Association at a national meeting.
- 6. Personal Expenses — Except in unusual circumstances, personal expenses, such as laundry and cleaning, tips, room service surcharges, personal phone calls, valet parking, internet, etc., are not reimbursable.

- ◇ Section 1: Association Information – ROA may decline to release any information without a written request. Following staff evaluation, the president or executive director can make a determination on each request. Although not required, when applicable, ROA should be guided by the Privacy Act and the Freedom of Information Act. ROA should

not release membership lists, social security numbers, member's or vendor's addresses, insurance lists, ROA facilities users, documents or employee records without clear justification.

- ◇ Section 2: Membership Data – The following policy applies to requests for membership data:
  - (a) Elected ROA officers must originate requests. As an exception, membership data may be released to candidates for national office. This exception would include department leaders, recent national convention attendees and current registrants for the national convention upon receipt of the candidate's endorsement and approval by the Executive Services Manager.
  - (b) The director of member services must approve vendor requests for membership files. The executive director and the director of member services will review and approve initial requests from new vendors.
  - (c) Member Services will deny outside requests for individual member information unless accompanied by written justification. When justification is provided it will be forwarded to the member in question for approval.
  - (d) Blanket requests to Member Services, such as requests for lists of all members in a department or chapter, should be routed through the appropriate department president or membership chair for approval, state a specific purpose and disavow that the list will be used to benefit another association or political candidate. This, of course, does not apply to the authorized users of the Remote On-Line Membership Reports (ROMR).

ROA membership data is the exclusive property of the Association. Under no circumstances will another association be granted access to this data for the purpose of recruiting.

The Executive Director has authority to approve all affinity programs and partners.

Only the president can grant relief from the requirements of this paragraph.
- ◇ Section 3: ROA Report to Members – The president and executive director will submit a combined annual progress report (“ROA Report to Members”). The report will cover the fiscal year and will be published as an insert to *The Officer* magazine.

- **POLICY C-19: NATIONAL CONVENTION**

- ◇ Section 1: Section Meetings – Sections may have individual meetings at national conventions provided, however, that any action taken by a section to have any force or effect nationally must be approved by a general session of the convention. A quorum of a service section meeting will exist whenever 35 percent or more of departments with accredited delegates are present.
- ◇ Section 2: Time and Place – The time and place of each national convention shall be published by the executive committee as nearly as possible to three years in advance.
- ◇ Section 3: Votes – In national convention voting, each service section of a department shall be entitled to one vote and one additional vote for each 250 members or major fraction thereof in that service section. At least one delegate from any service section of a department must be present to cast the department’s votes at meetings of that service section, but one delegate present from a department may cast all of that department’s votes at general sessions. For purposes of this policy, Association membership on 1 April as determined by national headquarters shall apply.

- **POLICY C-20: CONSTITUTION AND BYLAWS**

- ◇ Section 1: Proposed Amendment Submission – Any proposed amendment to the Association’s constitution or to bylaws shall be submitted to the president and secretary of each department and to each member of the National Council at least 90 days before the opening date of the national convention and the actual language of the proposed amendment shall be provided to the national convention at least 24 hours before it is to be considered for adoption. The Constitution and Bylaws Committee or the convention may amend any proposed amendment provided that the amendment is germane. This

policy may be suspended with respect to a single resolution by a two-thirds vote of the Executive Committee.

- ◇ Section 2: Proposed Amendment Filing – Proposed amendments to the constitution or bylaws received at ROA Headquarters not less than 30 days before the meeting of the Constitution and Bylaws Committee at a National Council Meeting shall be considered by the committee and submitted to the departments and to the next national convention.

- **POLICY C-21: RESOLUTIONS**

- ◇ Section 1: Approval – No national ROA resolution is official (and no external publication is authorized) until it has been passed by the national convention, National Council, or Executive Committee.
- ◇ Section 2: Democratic Process – Nothing in this policy statement shall be taken to abridge the right of the membership to adopt resolutions in accordance with the governing instruments of ROA. The Executive Committee, however, may pass resolutions that immediately become national policy mandates. These resolutions are reconsidered, in accordance with these procedures, at the next national meeting. Occasionally a proposed resolution may be drafted by members of the national staff in response to an emerging situation in Washington. These resolutions are given to the legislative counsel and considered at the national level in accordance with these procedures.
- ◇ Section 3: Internal Governance – Matters concerning the internal management and policies of the Association are best addressed through the established governing bodies, the National Council, the Executive Committee, service sections, committees, and the staff, rather than by resolution. The resolution process should be reserved for external matters falling within the national defense clause of the Association's congressional charter.
- ◇ Section 4: Publishing – Approved resolution procedures will be published and posted on the ROA website.
- ◇ Section 5: Resolution Filing – No resolution may be received or acted upon by the Resolutions Committee at any national convention or National Council meeting unless the resolution was filed at national headquarters subsequent to the last national convention or National Council meeting, and not less than 15 days prior to the opening date of the next National Council meeting or national convention.
- ◇ Section 6: Resolutions Not Properly Filed; Immediate Action – A resolution which was not properly filed in accordance with Executive Committee policy may not be moved from the floor of the national convention or National Council unless immediate action thereon is necessary. Such a resolution may be adopted only by a two-thirds affirmative vote.
- ◇ Section 7: Time-sensitive Resolutions – To be considered at a national meeting, a resolution that is not properly filed must be "time sensitive. The president, acting upon the recommendations of the Resolutions Committee, and with the advice of the vice president(s), makes the determination that a resolution is time sensitive, i.e., must be acted upon immediately and its consideration cannot be deferred until the next national meeting. Time-sensitive resolutions necessarily receive much less thorough and patient consideration than those that are properly filed. Therefore, this process should be used only for true emergencies.
