

“Salute to America’s Wounded Warriors”
Presented by BNY Mellon, Aon and Prudential
September 28, 2011
Pittsburgh, Pa

Currently, more than 6 million veterans have a disability, and more than 700,000 veterans are unemployed in any given month. Enlisted Military personnel are provided with excellent training during active duty, and most leave the service with strong technical and outstanding leadership qualities that are readily transferable.

The “Salute to America’s Wounded Warriors” is structured to help raise awareness and to directly support the job-search of disabled veterans and their spouses throughout the Pittsburgh region.

In appreciation for all that the US Armed Services have given to our Country, BNY Mellon, Aon and Prudential are conducting a “Salute to America’s Wounded Warriors”, a one-day workshop and networking event for the men and women injured overseas and their spouses. The goal of our program is to provide these brave men and women with the skills they need to help transition from a military career to a career in business and to assist them with finding meaningful employment.

We are looking for a number of disabled veterans and their spouses to participate in a free, one-day event on September 28, 2011, at BNY Mellon Center in downtown Pittsburgh. The event will consist of workshops in “Power Networking,” “Effective Job Search Techniques,” and “Transition from the Military to the Private Sector,” followed by a networking reception which will be attended by dozens of Pittsburgh-area companies with potential job openings.

We are looking for candidates with the following traits to join our ranks:

- Veterans or their spouses that will have completed their rehab and are entering the job market between September 1 and December 31
- A willingness to learn skills needed to successfully compete in a challenging job market
- Ability to attend the 1 day event on September 28th in Pittsburgh along with access to the internet for communication throughout this initiative.
- Strong PC and communication skills, effective problem solving and analytical thinking, positive attitude, ability to work effectively in teams

Enlist Now

If someone that you know is interested in attending this event please forward their name and contact information to Lori Hasley at lori.hasley@bnymellon.com or to Candice Mill at candice.mill@aon.com by Friday September 16, 2011.
